Flagler Home Builders Association Selects Clare for the Paradise Dream Home Project

Clare Controls will be the Smart Home solution for Paradise at Grand Lakes

Sarasota, FL, January 17, 2019 – Clare Controls is proud to announce the Flagler Home Builders Association has recently chosen Clare as the smart home solution for their Paradise at Grand Lakes Dream Home project located in Palm Coast, Florida. The Flagler HBA recently invited members to compete for the opportunity to participate in constructing a Dream Home to be sold with proceeds benefiting the HBA. Clare, in partnership with Tempus Pro Services of Sarasota, Florida, will supply and install a complete smart home and security system.

“The Flagler HBA is thrilled to announce we have selected Clare and its authorized dealer Tempus Pro Services to provide the smart home and security features of our Paradise Dream Home.”, said Annamaria Abad, Executive Officer of Flagler HBA. “We appreciate strong member partnerships and recognize they are an essential part of our strategy to maintain an effective HBA which advocates for the builder community in the Flagler area.”

Clare’s smart home platform was designed to provide homeowners enhanced safety and convenience features while being affordable. Clare compliments the lifestyle of every homeowner by giving them a permanent virtual presence, allowing them to stay connected with their home while away. Homeowners can further expand on their home with professionally and self-monitored security options, video monitoring, access control, climate, lighting, and entertainment devices. In addition, the Clare Video Doorbell as well as an Amazon Echo Dot will be provided to the homeowner at move-in, giving them the ultimate smart home experience.

“After meeting representatives of the Flagler HBA at the annual Southeast Building Conference in Orlando, we knew this was an organization we wanted to partner with. We were impressed by their level of commitment to educating lawmakers and the general public about the ways its members positively support the Flagler community,” said Dan Coons, Clare Eastern Regional Sales Manager.

“As Clare’s premier authorized dealer in the state of Florida, we have had tremendous success working with builders to provide a smart home and security system to their homeowners”, said Ben Price, President of Tempus Pro Services. “We look forward to the opportunity to educate FHBA builders on the competitive advantage Clare provides home builders in today’s residential market”.

Clare makes it simple for builders to sell homes that are “smart” and differentiate their product from the competition with a customizable, scalable solution. Clare provides support throughout the entire process for the builder, installing contractor, and the homeowner. We dedicate time to training the builder’s staff, model home support, presale education, homeowner orientation and post-occupancy support.
