clare ONE™

Wireless Security and Smart Home System

ClareOne™ is redefining what it means to live in an intelligent home. The panel elevates the experience by combining professional wireless security with full-featured home automation into a single, intuitive system.

Best of Both

The ClareOne™ Panel bridges the wide gap between today's commonly available security systems and luxury home automation solutions. Additionally, the ClareHome™ App gives you control of your system from anywhere... at home or away.

Intelligent and Compatible

ClareOne™ features Wi-Fi, LTE, 433MHz radio, Z-Wave Plus for robust performance, and works with hundreds of products from the brands you know and trust.

Kwikset **Honeywell** **Yale** **SONOS** **ecobee** **CLUTRON** **CHAMBERLAIN** and more!

Future-Ready

ClareOne™ software features free automatic updates that always keep your panel current. You can also add products to the system at any time.

Scalable to Advanced Automation

ClareOne™ integrates with Control4® and OvrC® for complete flexibility to complement your home and lifestyle, from simple to spectacular.
