

## ClareOne Auxiliary Touchpanel

### CLR-C1-ATP

The ClareOne Auxiliary Touchpanel acts as a secondary control interface for the ClareOne Panel, allowing end users to arm, disarm, monitor, and interact with their security and smart devices. The Touchpanel offers a unique, standalone security interface with additional controls for smart home features. Installation is easy using the supplied wall mount bracket, or the keypad can be placed on a countertop.

### Performance Highlights:

- Proximity sensor turns on screen automatically
- Automatic screen dimming and timeout
- Connects over Wi-Fi, requiring only a power supply
- Complete control of security and smart home features like locks, lights, thermostat, music, and more
- View live stream from installed ClareVision Plus cameras
- Control many devices at once by running scenes
- Countertop placement or wall mountable
- Dynamic zone status displays opened doors/windows at the top of the zone list
- ClareHome Touchpanel Power Extension Kit can be used for projects that require pre-wire over long distances
