ClareOne: Customizing Zone Names

Last modified: 07/30/20

Introduction

The ClareOne panel supports custom zone names which can be configured using FusionPro.

Note: Custom zone names are not annunciated, there is an audible beep when the zone is faulted.

To customize a zone name:

- 1. Access the desired customer account in FusionPro, and then click Edit.
- 2. Click the **Devices** tab, click **Edit** next to the ClareOne Panel device.
