

# ClareOne Panel Wall Mount Locking Clips Installation Sheet

Last modified: 10/17/20

## Description

The ClareOne Panel Wall Mount Locking Clips provide an extra layer of support and security for a wall mounted panel. Press one on each side of the panel, slipping it into the pre-existing grooves.

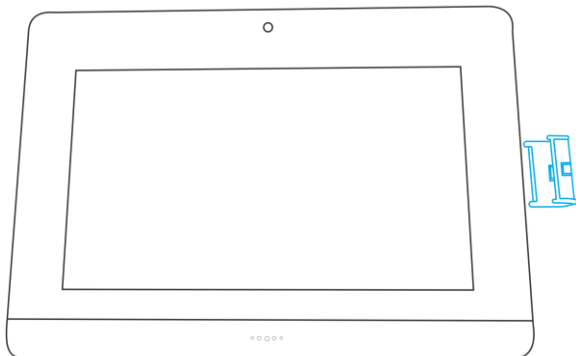

## Installation

The clips are designed to snap into the grooves on the side of a wall mounted ClareOne panel.

### To install the mounting clips:

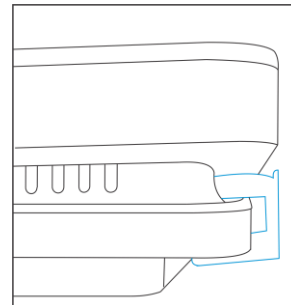

1. Locate the wall mounted ClareOne panel.
2. Press a mounting clip into the groove between the panel and the mount, about halfway down.

It snaps into place.

3. Repeat on the opposite side of the panel using the second clip.

Once installed, the clips are flush with the panel edges.
