## Introduction

The Honeywell Lyric line is a set of smart thermostats. The Lyric thermostats have been tested and certified for integration with the ClareHome system.

By integrating the Lyric thermostat to a ClareHome control system, your customers can send commands to the thermostat to change its modes, cool and heat settings, and fan status from their mobile iOS devices or Android smartphone.

When integrating the Lyric thermostat into your ClareHome project, no wires or extra connections are necessary. Install the Lyric according to its documentation, and then connect it directly to home network's Wi-Fi.

The Lyric thermostat integrates with the ClareHome system in a way similar to existing HVAC drivers. All HVAC drivers share a common UI to keep user experiences consistent.

## Supported Honeywell Lyric thermostats models

The Following figure shows the Lyric controls on the ClareHome UI.

Figure 1: User interface of the Honeywell Lyric thermostat

- (1) Temperature setting displays on the ClareHome UI in Fahrenheit.
- (2) Change the Heat set point by tapping the up/down arrow.
- (3) Change the Cool set point by tapping the up/down arrow.
- (4) Change the Operation mode by tapping the desired radio button.
- (5) Change the Fan mode by tapping the desired radio button.

#### Installing the Lyric thermostat

A qualified installation technician should install the Lyric thermostat. Refer to the documentation included with your Lyric devices. Clare Controls does not assume any responsibility for damages caused by improper installation or connection to the network. Register your thermostat on the Lyric website/app before adding and configuring the device in the ClareHome app.

## **Connecting the Lyric thermostat to ClareHome**

Use the Honeywell Lyric app. Once the app is installed, follow the displayed onscreen instructions for thermostat and account setup.

## Adding and removing the thermostat in ClareHome

Once you have installed and setup the thermostat using the Honeywell Lyric app, add and configure it with the ClareHome app.

Notes

- An internet connection is required when adding a Lyric device. It cannot be added when the CLIQ.mini is in AP mode.
- You will need the **homeowner's** Honeywell Lyric account credentials.
- The Honeywell Lyric thermostats must be added and configured on the Honeywell website before they can be added to ClareHome.

To add the thermostat in the ClareHome app:

1. Tap the ClareHome app's **Devices** page.

2. Tap Manage Devices.

3. Tap Add Devices.

Manage Devices

4. Select the device category, **Climate**.

<		Add a Device	
	Access		>
Ð	Cameras		>
6	Climate		>
Ģ	Lighting		>

5. Tap Honeywell – Lyric T-Series, Lyric Round.

6. Read the displayed Device Authorization message, and then tap **Authorize Device**.

The Lyric Login page displays.
